Summary

I am a person with an array of interests, especially in tech. I am currently pursuing Masters in Computer Science at Pune University (SPPU). I have learned MERN stack development within 73 days and currently polishing my HTML, CSS, Javascript, and ReactJs frontend web development skills by creating projects.

I studied till 12th in a CBSE board school where I learned my 1st programming language which is C++.

I am constantly learning about new technologies in the world of tech, my current goals after landing my first job are to start getting into NextJs and Tailwind CSS
